I understand that these activities may require good physical condition and a degree of skill and knowledge. While HSC will make reasonable efforts to do their best to provide a safe environment, they cannot guarantee the cleanliness of every surface members may come in contact with. SHOOTING RULES AND REGULATIONS

The following Rules and Regulations govern all Shooting events:

1. Hearing and Eye protection is mandatory for all shooters as well as bystanders and workers while anywhere on the shooting course. This includes all children. Everyone must supply their own equipment. A shooter will not be allowed to participate in this tournament without eye and ear protection.
2. No alcohol may be consumed prior to, or while shooting.
3. Shotgun shells cannot exceed 1-1/8 oz. shot. Shells may include 7-1/2, 8, and 9 shot only. No shot larger than 7-1/2 can be used. No more than two (2) shells may be loaded at any time, including any side games such as Flurry. Participants are responsible for providing their own shells for the event.
4. Gun actions will remain open at all times on the premises except when on post ready to fire. When the gun is loaded, keep gun pointed down range at all times. Gun actions will be open and shells removed when changing posts.
5. If your gun malfunctions (fails to fire or jams for mechanical reasons), keep muzzle down range at all times while opening action. A shooter will NOT be allowed to make gun repairs while in the post. Malfunctions will be noted on the scorecard and after three (3) malfunctions any further malfunctions will result in targets marked as LOST. The shooter may use a backup gun or a team member's gun to finish the event.
6. No choke changes will be allowed once a shooter begins shooting on post.
7. If your gun does not fire for any reason other than a gun malfunction, including safety on, not loaded, selector on wrong barrel, etc. when a called for target is released, the target or targets will be counted as LOST. In case of "REPORT" doubles, if no shot is fired at the first target, a second target will be thrown when the first target hits the ground. Shooter may fire at the second target when ready.
8. Call "PULL" loudly when calling for target to be released.
9. Call the range master or course official if a machine has broken down or if a machine is breaking too many clay targets. DO NOT ATTEMPT TO FIX IT YOURSELF.
10. The Tournament Staff will take care of loading machines as needed. DO NOT ATTEMPT TO LOAD MACHINES YOURSELF.
11. If a tournament staff has to make repairs on thrower, open action and remove shells while on post.
12. A legal target is an unbroken clay target that is thrown from the trap in prescribed flight pattern within the three-second time limit after the participant calls for the target. Flight patterns are not exact and may vary in windy or rainy conditions. A legal target is one that resembles the general flight pattern and is not broken.
13. Only legal targets will be scored and the scorer will be the judge of whether or not a target is broken. Only targets with a visible piece broken off will be scored as dead. Birds deflected in flight or dusted (but with no visible breakage) will be scored as LOST. Lewis Scoring system used.
14. A Blind Draw will be used to provide scores for teams that are short 1 or more shooters.
15. Each squad of individuals may be allowed to see one legal set of targets from each trap before shooting at that station. Only the shooter will be allowed in the shooters post while shooting. The remainder of the group is required to not infringe upon the shooters line of fire or field of view.
